1) On 10 February 2012, there was registered a merger of ASEE Bulgaria (the taking-over company) with Altius, Bulgaria (the acquired company).

The parent of Asseco South Eastern Europe S.A. is Asseco Poland S.A. (the higher-level parent company). As at 31 March 2012, Asseco Poland S.A. held a 51.06% stake in the share capital of ASEE S.A.

Within the Group's organizational structure, the company of E-Mon, Montenegro is treated as a jointly controlled company and therefore consolidated under the proportionate method. The remaining companies incorporated within the Group are treated as subsidiaries and are subject to full consolidation.

With regard to the call options embedded in the agreement for the acquisition of Multicard, Serbia under which ASEE Serbia is entitled to buy out the remaining non-controlling interests, the company of Multicard, Serbia is treated as a subsidiary and is subject to full consolidation.

As at 31 March 2012 as well as at 31 December 2011, voting interests the Group was entitled to exercise in its subsidiary companies were proportional to the Group's equity holdings in those undertakings.

## **VI. EFFECTS OF CHANGES IN THE ORGANIZATIONAL STRUCTURE**

*Description of the effects of changes in the Group's organizational structure, including those resulting from business combinations, acquisition or disposal of companies, long-term investments, division or restructuring of entities, or discontinuation of business activities.*

During the period of 3 months ended 31 March 2012, the following changes in the Group composition were observed:

### **□ Merger of the companies of ASEE Bulgaria and Altius, Bulgaria**

On 10 February 2012, there was registered a merger between our two subsidiary companies seated in Bulgaria, namely ASEE Bulgaria and Altius, Bulgaria. The merger was executed by transferring all the assets of Altius, Bulgaria to ASEE Bulgaria. As a consequence of the merger, on 10 February 2012, Altius Bulgaria was deleted from the commercial register and all of its rights and obligations were taken over by ASEE Bulgaria.

### **□ Signing of the Merger Plan between ASEE S.A. and ITD Poland**

In its current report dated 1 March 2012, our Management Board informed about the Merger Plan that was agreed upon and signed between the companies of ASEE S.A. and ITD Poland on 29 February 2012. The merger shall be effected pursuant to article 492 § 1 item 1 of the Polish Commercial Companies Code, this is by transferring all the assets of ITD Poland (the Acquired Company) to ASEE S.A. (the Taking-over Company). Following the merger, the company of ITD Poland shall be dissolved without going into liquidation.

At present the share capital of ITD Poland amounts to PLN 125,651,760.00 and is divided into 76,245 shares with a par value of PLN 1,648 each. Because ASEE S.A., acting as the Taking-over Company, holds all the shares in ITD Poland (being the Acquired Company), thereby being the sole shareholder in ITD Poland, the merger shall be executed according to art. 515 § 1 of the Polish Commercial Companies Code, this is without increasing the share capital of the Taking-over Company, as well as pursuant to art. 516 § 5-6 of the PCCC regulating the simplified business combination procedure.

In the merger justification report published on 20 April 2012, the Management Board of ASEE S.A. indicated that the conducted merger aims at enhancing the business potential of the merging companies and improving their ability to effectively compete in the local and European markets, which should strengthen the financial stability of business operations and create higher value for shareholders of both the companies.

## **SUPPLEMENTARY INFORMATION AND EXPLANATORY NOTES**

### **I. ACCOUNTING PRINCIPLES APPLIED WHEN PREPARING THE CONSOLIDATED FINANCIAL STATEMENTS**

#### **1. Basis for preparation of interim condensed consolidated financial statements**

These interim condensed consolidated financial statements were prepared in accordance with the historical cost principle, except for derivative financial instruments and assets that are carried at fair value through profit or loss.

The presentation currency of these interim condensed consolidated financial statements is Polish zloty (PLN), and all figures are presented in thousands of zlotys (PLN'000), unless stated otherwise.

These interim condensed consolidated financial statements were prepared on a going-concern basis, assuming the Group, Parent Company as well as its subsidiary companies will continue their business activities in the foreseeable future.

Till the date of approving these financial statements, there were observed no indications of a threat to the Company and the Group companies' ability to continue as going concerns in the period of at least 12 months following the balance sheet date.

#### **2. Compliance statement**

These interim condensed consolidated financial statements were prepared in compliance with the International Financial Reporting Standards ("IFRS"), and in particular in accordance with the International Accounting Standard 34 Interim Financial Reporting, and IFRS adopted by the European Union. As at the date of approving publication of these financial statements, given the ongoing process of implementing the IFRS standards in the EU as well as the nature of the Group's operations, within the scope of accounting principles applied by the Group there is no difference between the IFRS that came into force and the IFRS endorsed by the European Union.

IFRS include standards and interpretations accepted by the International Accounting Standards Board ("IASB") and the International Financial Reporting Interpretations Committee ("IFRIC").

Some of the Group companies maintain their accounting books in accordance with the accounting policy (principles) set forth in their respective local regulations. The interim condensed consolidated financial statements include adjustments not disclosed in the accounting books of the Group's entities, which were introduced to adjust the financial statements of those entities to the IFRS.

#### **3. Significant accounting policies**

The major accounting principles adopted by the Asseco South Eastern Europe Group have been described in the consolidated financial statements for the year ended 31 December 2011, which were published on 23 February 2012 and are available at the Issuer's website: <http://www.asseco-see.com/pl>. These interim condensed consolidated financial statements do not include all the information and disclosures required for annual consolidated financial statements and therefore they should be read together with the Group's consolidated financial statements for the year ended 31 December 2011.

The accounting principles (policy) adopted for drawing up this report for the 1<sup>st</sup> quarter of 2012 are coherent with those applied for preparation of the Group's consolidated financial statements for the year ended 31 December 2011, except for applying the amendments to standards and new interpretations effective for annual periods beginning on or after 1 January 2012.

#### **4. Functional currency and reporting currency**

The functional currency applied by the Parent Company as well as the reporting currency used in these interim condensed consolidated financial statements is the Polish zloty (PLN).

Separate and consolidated financial statements of the Group companies are drawn up in the functional currencies of their primary business environments. The functional currencies of direct subsidiaries of ASEE S.A. include the Romanian leu (RON), Croatian kuna (HRK), Serbian dinar (RDS), euro (EUR), Turkish lira (TRY), Bosnia and Herzegovina convertible mark (BAM), and Polish zloty (PLN).

#### **5. Changes in estimates**

In the period of 3 months ended 31 March 2012, the Company's approach to making estimates was not subject to any substantial changes.

#### **6. Professional judgement**

Preparing consolidated financial statements in accordance with IFRS requires making estimates and assumptions which impact the data disclosed in such financial statements. Despite the estimates and assumptions have been adopted based on the Group's management best knowledge on the current activities and occurrences, the actual results may differ from those anticipated.

Below are presented the main areas, which in the process of applying the accounting principles (policy) were subject to accounting estimates and the management's professional judgement, and whose estimates, if changed, could significantly affect the Group's future results.

##### ***i. Operating cash flows assumed for valuation of IT contracts as well as measurement of their completion***

The Group executes a number of contracts for construction and implementation of information technology systems. The contractual cash flows are denominated in foreign currencies. Valuation of IT contracts requires that future operating cash flows are determined in order to arrive at the fair value of income and expenses and to provide the fair value of the embedded currency derivatives, as well as it requires measurement of the progress of contract execution. The percentage of contract completion shall be measured as the relation of costs already incurred (provided such costs contribute to the progress of work) to the total costs planned, or as a portion of man-days worked out of the total work-effort required. As at 31 March 2012, receivables arising from valuation of IT contracts amounted to PLN 26,828 thousand, while liabilities due to such valuation equalled PLN 1,262 thousand.

##### ***ii. Rates of depreciation and amortization***

The level of depreciation and amortization rates is determined on the basis of anticipated period of useful economic life of the components of tangible and intangible assets. The Group verifies the adopted periods of useful life on an annual basis, taking into account the current estimates.

##### ***iii. Goodwill – impairment test***

As at 31 December 2011, the Management Board of the Parent Company performed an impairment test on goodwill arising from the acquisition of subsidiary companies. This task required making estimates of the recoverable value of cash-generating units to which goodwill is allocated. The recoverable value is estimated by determination of the future cash flows expected to be achieved from the cash-generating unit and determination of a discount rate to be subsequently used in order to calculate the net present value of those cash flows.

As at 31 March 2012, the Company verified its assumptions for the impairment test performed on goodwill as at 31 December 2011. In particular we checked whether the assumed financial results to be achieved in 2012 by individual cash-generating units are

not materially different from their actual financial performance in the first 3 months of 2012, and whether internal or external factors did not cause a deterioration of the financial forecasts for the next years. Because no indications of impairment were detected in any of the analyzed cases, the Parent Company did not carry out any impairment test as at 31 March 2012. However, impairment testing will be performed as at 31 December 2012, even if there are no indications of impairment.

**iv. Liabilities to pay for the remaining stakes of shares in subsidiary companies**

As at 31 March 2012 as well as at 31 December 2011 and 31 March 2011, the Group recognized liabilities by virtue of future payments to non-controlling shareholders in the company of Multicard, Serbia. Such liabilities equalled PLN 1,133 thousand as at 31 March 2012, PLN 1,266 thousand as at 31 December 2011, and PLN 1,093 thousand as at 31 March 2011. Additionally, as at 31 March 2012, the Group recognized liabilities by virtue of future payments for shares acquired in ASEE Bulgaria in the amount of PLN 445 thousand. As at 31 December 2011, liabilities by virtue of future payments for share purchases amounted to: PLN 85 thousand for shares in EST A.Ş. (presently ASEE Turkey), PLN 763 thousand for shares in ASEE Bulgaria, and PLN 355 thousand for shares in Altius, Bulgaria. Whereas, as at 31 March 2011, the Group recognized liabilities by virtue of future payments for shares acquired in the companies of EST A.Ş. amounting to PLN 10,701 thousand and ASEE Bulgaria amounting to PLN 1,906 thousand. Determination of the amounts payable under such liabilities required making estimates of the companies' financial results.

**v. Deferred income tax assets (net of deferred income tax provision)**

In the period of 3 months ended 31 March 2012, the Group recognized a deferred income tax asset (net of deferred income tax provision). The Parent Company did not recognize the entire balance of deferred income tax assets related to the prior years' losses. Such deferred income tax assets were recognized to the extent it is probable that future taxable income will enable writing such unutilized losses off. As at 31 March 2012, the Parent Company's tax-deductible losses not accounted for in deferred income tax assets amounted to PLN 93,627 thousand.

Based on the current financial budget and applicable tax regulations, the Group's management believes that future utilization of deferred tax assets recognized in the consolidated financial statements in the amount of PLN 2,014 thousand is very likely.

**7. Seasonal nature of business**

The Group's activities are subject to seasonality in terms of uneven distribution of turnover in individual quarters of the year. Because bulk of sales revenues are generated from the IT services contracts executed for large companies and public institutions, the fourth quarter turnovers tend to be higher than in the remaining periods. Such phenomenon occurs for the reason that the above-mentioned entities close their annual budgets for implementation of IT projects and carry out investment purchases of hardware and licenses usually in the last quarter.

**8. Changes in the applied principles of presentation**

In the period reported the Group did not introduce any changes to the applied principles of data presentation.

**9. Changes in the accounting principles applied**

In the period reported the Group did not introduce any changes to the applied principles of accounting, except for adopting the amendments to standards and new interpretations effective for annual periods beginning on or after 1 January 2012.

## **10. Corrections of material errors**

In the period reported there were no events or developments that would require making corrections of any misstatements.

## **II. INFORMATION ON OPERATING SEGMENTS**

The Asseco South Eastern Europe Group has identified the following reportable segments reflecting the structure of its business operations:

- a) Banking Solutions [BAN - CORE + MASS],
- b) Payment Solutions [BAN - CARD + PG],
- c) Systems Integration [SI].

These reportable segments correspond to the Group's operating segments.

### **Banking Solutions [BAN - CORE + MASS]<sup>1</sup>**

The Banking Solutions segment deals with integrated banking systems based on the Oracle and Microsoft platforms (offered under the brand name of ASEBA), including primarily core banking systems.

In addition, the integrated systems include solutions dedicated to support various bank access channels, payment systems, reporting systems for regulatory compliance and managerial information, as well as risk management systems.

This segment also provides IT systems enabling secure authentication of bank clients and system users, as well as e-banking solutions available on mobile phones. These solutions are marketed as an integral part of the core and multi-channel banking systems offered by the Group companies, or separately for the purpose of being integrated with legacy IT solutions or third-party software already utilized by banks. Our offering features the authentication technologies that make use of mobile tokens, SMS, PKI (Public Key Infrastructure) / chip cards (smartcards) acting as electronic signature devices. The ASEBA JiMBA mobile banking system and a variety of e-commerce solutions are state-of-the-art products providing access to banking services over the Internet from mobile phones.

### **Payment Solutions [BAN - CARD + PG]<sup>1</sup>**

This segment is engaged in the sale and maintenance of ATMs and POS terminals as well as in the provision of related support services. Furthermore, the segment provides 'top-up' services, i.e. distribution of services offered by third-party vendors based on proprietary IT solutions, using the network of ATMs and POS terminals (e.g. phone card recharging, bill payments). This operating segment also provides systems for settlement of internet payments made with credit cards as well as for fast and direct internet money transfers. The Asseco South Eastern Europe Group offers systems based on its proprietary IT solutions, both in the form of outsourcing or implementation of software within the client's infrastructure.

### **Systems Integration [SI]**

This segment is engaged in the provision of services of development of customized IT systems, especially for the needs of integration of third-party software and elements of infrastructure, as well as in the sale and installation of hardware.

Operating profit margin	12%	11%
Net profit margin	12%	12%
Return on equity (ROE)	9%	8%
Return on assets (ROA)	7%	7%

The above ratios have been computed using the following formulas:

Gross profit margin = gross profit on sales / sales

EBITDA margin = (operating profit + depreciation and amortization) / sales

Operating profit margin = operating profit / sales

Net profit margin = net profit for the period reported attributable to Shareholders of the Parent Company / sales

Return on equity (ROE) = net profit for the period of trailing 12 months attributable to Shareholders of the Parent Company / average annual equity attributable to Shareholders of the Parent Company

Return on assets (ROA) = net profit for the period of trailing 12 months attributable to Shareholders of the Parent Company / average annual assets

In the 1<sup>st</sup> quarter of 2012, the Group's gross profit on sales reached PLN 28,195 thousand and it increased by 9% compared with the 1<sup>st</sup> quarter of 2011. Whereas, gross profit margin achieved in the 1<sup>st</sup> quarter of 2012 equalled 27% and it improved by 1 percentage point from the last year's level.

Net profit attributable to shareholders of the Parent Company amounted to PLN 12,708 thousand in the 1<sup>st</sup> quarter of 2012 and, when compared with the level of PLN 12,115 thousand earned in the corresponding period of 2011, it increased by 5%. Concurrently, operating profit improved by PLN 1,229 thousand or by 11% year on year.

Quick liquidity ratio	2.41	2.21	1.97
Absolute liquidity ratio	1.28	0.99	1.06

The above ratios have been computed using the following formulas:

Working capital = current assets - current liabilities

Current liquidity ratio = current assets / current liabilities

Quick liquidity ratio = (current assets - inventories - deferred expenses) / current liabilities

Absolute liquidity ratio = (bonds and securities held to maturity + cash and short-term bank deposits) / current liabilities

<b>Consolidated earnings per share for the period reported attributable to Shareholders of ASEE S.A. (in PLN):</b>		
Basic consolidated earnings per share from continuing operations for the period reported	0.06	0.06
Diluted consolidated earnings per share from continuing operations for the period reported	0.06	0.06

Basic earnings per share are computed by dividing net profit for the period reported, attributable to shareholders of the Parent Company, by the weighted average number of ordinary shares outstanding during that financial period.

Diluted earnings per share are computed by dividing net profit for the period reported, attributable to shareholders of the Parent Company, by the adjusted (for the diluting impact of potential shares) weighted average number of ordinary shares outstanding during that financial period, adjusted by the factor of conversion of bonds convertible to ordinary shares.

The tables below present net profits and numbers of shares used for calculation of basic and diluted earnings per share:

	<b>3 months ended 31 March 2012 (unaudited)</b>	<b>3 months ended 31 March 2011 (unaudited)</b>

	<b>61,243</b>	<b>85,742</b>	<b>46,545</b>

Trade accounts receivable are not interest-bearing.

The Group has a relevant policy based on selling its products to reliable clients only. Owing to that, in the management's opinion, the credited sales risk would not exceed the level covered by allowances for doubtful accounts.

As at 31 March 2012, current receivables and future receivables in the amount of PLN 2,067 thousand served as security for bank loans and guarantee facilities. As at 31 March 2012, there were no liabilities under bank loans secured with such assets; however, the Group recognized off-balance-sheet liabilities due to bank guarantees extended under a bank guarantee facility secured with receivables in the amount of PLN 4,144 thousand.

As at 31 December 2011, current receivables and future receivables in the amount of PLN 522 thousand served as security for bank loans and bank guarantee facilities. As at 31 December 2011, there were no liabilities under bank loans secured with such assets; however, the Group recognized off-balance-sheet liabilities due to bank guarantees extended under a bank guarantee facility secured with receivables and inventories in the amount of PLN 3,029 thousand.

As at 31 March 2011, current receivables and future receivables in the amount of PLN 250 thousand served as security for bank loans and guarantee facilities. As at 31 March 2011, there were no liabilities under bank loans secured with such assets; however, the Group recognized off-balance-sheet liabilities due to bank guarantees extended under a bank guarantee facility secured with receivables and inventories in the amount of PLN 4,290 thousand.

<b>Cash and cash equivalents as disclosed in the cash flow statement</b>	<b>111,678</b>	<b>103,042</b>	<b>97,457</b>

The interest on cash at bank is calculated with variable interest rates which depend on bank overnight deposit rates. Short-term bank deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Group and earn interest at the respective short-term deposit rates.

Short-term cash deposits did not serve as security for any bank guarantees (of due performance of contracts or tender deposits) as at 31 March 2012, 31 December 2011 nor as at 31 March 2011.

As at 31 March 2012, restricted cash in the amount of PLN 251 thousand served as security for bank guarantees (of due performance of contracts or tender deposits).

As at 31 December 2011, restricted cash in the amount of PLN 419 thousand served as security for bank guarantees (of due performance of contracts or tender deposits).

As at 31 March 2011, restricted cash in the amount of PLN 580 thousand served as security for bank guarantees (of due performance of contracts or tender deposits).

As at 31 March 2012 as well as at 31 December 2011 and 31 March 2011, the Group carried a long-term liability under the put options held by non-controlling shareholders in Multicard, Serbia. Such liability corresponds to the estimated present value of future payment for the remaining stake of shares in the above-mentioned company. Determination of fair value of the liability resulting from the possible exercise of stock put options was based on the following several assumptions. The Group assumes the stock put options will be exercised by all the minority shareholders, and as a consequence the Group will acquire a 100% share in profits. The concluded stock option agreement stipulates that the future payment shall be equal to the amount of audited net profit for the calendar year preceding the option exercise year, multiplied by a contractually predefined fixed rate. Net profit assumed for measurement of the aforesaid liability has been based on the most up-to-date financial forecasts for the current year and future periods. This foreign-currency liability was restated in Polish zlotys at the exchange rates published by the National Bank of Poland on 31 March 2012, 31 December 2011 and 31 March 2011, and it amounted to PLN 1,133 thousand, PLN 1,266 thousand and PLN 1,093 thousand, respectively.

### Liabilities due to dividend payments

As at 31 March 2012, the Group had no liabilities by virtue of dividend payments. Liabilities due to dividend payments disclosed as at 31 December 2011 in the amount of PLN 84 thousand corresponded to income tax payable on dividends paid out to shareholders of ASEE S.A.

Whereas, as at 31 March 2011, liabilities due to dividend payments totalled PLN 2,781 thousand and they included liabilities assumed when obtaining control over the companies of BDS d.o.o. (presently ASEE Croatia) and Cardinfo BDS d.o.o. (presently ASEE B&H (Sarajevo)), as well as liabilities to pay out dividends from undistributed profits for the

years 2009 and 2010 that were recognized by the Group, where such payments to former shareholders were provided for in the relevant company acquisition agreement.

**Liabilities due to the acquisition of shares** disclosed as at 31 March 2012 include the outstanding portion of payment for a 49% stake in ASEE Bulgaria acquired in 2010, in the amount of PLN 445 thousand.

As at 31 December 2011, liabilities arising from the acquisition of that 49% stake in ASEE Bulgaria amounted to PLN 763 thousand. During the 1<sup>st</sup> quarter of 2012, these liabilities were subject to revaluation based on the audited financial results of the acquired company for 2011. Following such remeasurement, these liabilities were reduced by PLN 318 thousand being recognized as the Group's financial income for the 1<sup>st</sup> quarter of 2012 (of which: PLN 272 thousand under 'reversal of liabilities due to the acquisition of shares', and PLN 46 thousand under 'positive foreign exchange differences'). Hence, the outstanding amount of these liabilities as at 31 March 2012 dropped to PLN 445 thousand.

In the 1<sup>st</sup> quarter of 2012, the Group also recalculated its outstanding liabilities for the acquisition of shares in EST A.Ş. (presently ASEE Turkey), amounting to PLN 85 thousand as at 31 December 2011. Following such remeasurement, these liabilities were reduced by PLN 85 thousand being recognized as the Group's financial income for the 1<sup>st</sup> quarter of 2012 (of which: PLN 84 thousand under 'reversal of liabilities due to the acquisition of shares', and PLN 1 thousand under 'positive foreign exchange differences').

Furthermore, in the 1<sup>st</sup> quarter of 2012, the Group's liabilities to pay the second instalment for shares acquired in the Bulgarian company Altius, amounting to PLN 355 thousand as at 31 December 2011, were reversed. Such reduction was made as the financial results generated by that acquired company were weaker than originally expected. Hence, the Group recognized a financial income of PLN 337 thousand, under 'reversal of liabilities due to the acquisition of shares'.

Liabilities due to the acquisition of shares disclosed as at 31 December 2011 included the outstanding portion of payment for shares acquired in EST A.Ş. (presently ASEE Turkey) in the amount of PLN 85 thousand, a liability to pay PLN 763 thousand for a 49% stake in ASEE Bulgaria purchased in 2010, as well as a liability to pay PLN 355 thousand of the second instalment for shares acquired in the Bulgarian company Altius.

Liabilities due to the acquisition of shares disclosed as at 31 March 2011 included the outstanding portion of payment for shares acquired in EST A.Ş. (presently ASEE Turkey) in the amount of PLN 10,701 thousand. In the period of 3 months ended 31 March 2011, there was signed a memorandum of understanding on reducing the amount of EST's net profit for 2011 used for the calculation of the next instalment on shares in EST A.Ş. which resulted in a reduction of the amount of such next instalment payable for shares acquired in that company. As a result of signing the above-mentioned memorandum of understanding, in the 1<sup>st</sup> quarter of 2011 the Group recognized a financial income of PLN 1,790 thousand following a decrease in the estimated remaining payment for the acquisition of shares in EST A.Ş. Furthermore, as at 31 March 2011, the Group disclosed a liability of PLN 1,906 thousand payable on the purchase of a 49% stake in ASEE Bulgaria in 2010.

## **VI. RELATED PARTY TRANSACTIONS**

*Information on one or more transactions concluded by the issuer or its subsidiary with related companies if they are, separately or jointly, deemed significant and were carried out not on an arm's length basis, including a specification of their value; however, information on individual transactions may be grouped by type except where information on individual transactions is essential to understand their impact on the property and financial position as well as on financial results of the issuer, including a presentation of:*

- a) information on the entity with whom such transaction was concluded,*
- b) information on the relationships between the issuer or its subsidiary and the transaction party,*
- c) information on the subject of the transaction,*
- d) material terms and conditions of the transaction, with special regard to financial conditions, and including any specific conditions provided for in the contract in particular when they diverge from the conditions commonly applied in this type of contracts,*
- e) other information on the transaction, if they are essential to understand the impact on the property and financial position as well as on financial results of the issuer,*
- f) any changes in the transactions with related companies which were described in the last annual report, which might have a significant impact on the issuer's property, financial position, and financial results.*

Until the date of approval of these interim condensed consolidated financial statements, ASEE S.A. has not received any information on transactions with related companies conducted during the reporting period which would be, separately or jointly, deemed significant and would be carried out not on an arm's length basis.

## **VII. INFORMATION ON PENDING LEGAL PROCEEDINGS CONCERNING LIABILITIES OR RECEIVABLES OF ASSECO SOUTH EASTERN EUROPE S.A. OR ITS SUBSIDIARY COMPANIES**

*Indication of legal proceedings pending before any court, arbitration authority or public administration authority, including information on:*

- a) legal proceeding related to liabilities or receivables of the issuer or its subsidiary amounting to at least 10% of the issuer's equity, including a specification of the subject of such proceeding, value in dispute, date when the proceeding was initiated, parties to the proceeding, and the issuer's standpoint on the matter,*
- b) two or more legal proceedings related to liabilities and receivables amounting in aggregate to at least 10% of the issuer's equity, including a specification of the total value in dispute separately in the group of liabilities and receivables, and the issuer's standpoint on the matter; and in relation to the largest proceedings in the group of liabilities and in the group of receivables - a specification of the subject of such proceeding, value in dispute, date when the proceeding was initiated, and parties to the proceeding.*

During the period reported no proceedings were instituted or pending before any court, arbitration authority or public administration authority, concerning any liabilities or receivables of ASEE S.A. or its subsidiary companies, whose aggregate value would equal or exceed 10% of the Company's equity.

## **VIII. OPINION OF THE MANAGEMENT BOARD ON FEASIBILITY OF MEETING THE PREVIOUSLY PUBLISHED FINANCIAL FORECASTS**

*Standpoint of the Management Board on feasibility of meeting the previously published financial forecasts for the year in view of the actual results presented in this quarterly report and their comparison to the forecasted results.*

The Management Board of ASEE S.A. has not published any financial forecasts for the year 2012.

## **IX. INFORMATION ON BANK LOAN SURETIES OR GUARANTEES EXTENDED BY THE ISSUER**

*Information on bank loan sureties or guarantees extended by the issuer or its subsidiary in total to any single entity or its subsidiary, where the aggregate value of all the existing sureties or guarantees extended in favour of such entity would equal at least 10% of the issuer's equity, including:*

- a) corporate name of the entity to which such sureties or guarantees were extended,*
- b) total amount of loans and borrowings which were, in whole or in specified part, duly secured by a surety or guarantee,*
- c) term for which such sureties or guarantees were extended,*
- d) financial conditions under which such sureties or guarantees were extended, including the remuneration payable to the issuer or its subsidiary for granting such sureties or guarantees,*
- e) type of relationship between the issuer and the entity which took out the related bank loans or borrowings.*

During the 3-month period ended 31 March 2012, neither the Issuer nor any of its subsidiaries granted any bank loan sureties or guarantees to any single entity or their subsidiary, where the aggregate value of all the existing sureties or guarantees extended to such entity would equal at least 10% of the Issuer's equity.

## **X. OTHER FACTORS SIGNIFICANT FOR ASSESSMENT OF THE HUMAN RESOURCES, ASSETS, AND FINANCIAL POSITION**

*Other information which, in the issuer's opinion, are essential for assessing its human resources, assets, financial position and financial results and changes thereof, as well as for evaluation of the issuer's ability to pay off its liabilities.*

### **1. Issuer's development policy**

The Asseco South Eastern Europe Group pursues two main directions of development. The first is based on organic growth in the existing geographical and product markets; whereas, the second assumes expansion in such markets by way of company acquisitions. The Group's development directions are shaped primarily by the strategic assumptions adopted for its individual business units.

The Banking Solutions unit strives to expand its business in the markets of Albania, Bosnia and Herzegovina, Croatia, and Kosovo. The objective is to launch the offering of core banking systems and solutions supporting the bank distribution channels. As part of its development in Bosnia and Herzegovina, the Group plans to reinforce its market position as a provider of software solutions for banking. Following such plans, the Group establishes in miscellaneous countries its "competence centres" that will serve as the base for provision of customer support services in the future. The Banking Solutions segment also includes the results of operations within mobile banking and authentication systems. In this area, sales revenues are increased pursuing a different strategy. First of all, the corresponding products are marketed in the whole territory of operations of the Asseco Group. This business unit focuses on setting up sales channels in all the promising markets. In South Eastern Europe, the unit is engaged in building a sales network drawing on the resources of all the Asseco South Eastern Europe Group subsidiaries. Whereas in countries outside this region, the unit strives to enter into cooperation with local business partners in order to sell its proprietary solutions through their distribution networks. At all times the technical support and production facilities of this business unit are located in Croatia.

The Payment Solutions unit seeks opportunities for development in broadening its geographical coverage and product portfolio. The unit is engaged in building support centres in five countries including Bulgaria, Kosovo, Slovenia, Romania, and Albania with the objective to enhance its presence on these markets. In 2011, ASEE S.A. took over a company engaged in the provision of POS supply and maintenance services in the Bulgarian market. This made it possible to enter the market segment, where this unit has not been represented so far. Additionally, the Payment Solutions unit continues to look for and test new products and solutions that would match its operating profile.

The Systems Integration unit envisages its development basically by expanding its presence in various countries of the region. Growth shall be achieved through continued delivery of the latest solutions of the world's leading producers as well as through the promotion of integration services featuring proprietary solutions. Moreover, the Group makes strong endeavours to acquire competence in the implementation of the EU co-financed projects, both in the area of accession programs and structural funds.

### Factors influencing the Group's financial results:

- consistently implemented market strategy of individual operating segments;
- cost reduction programs implemented in individual companies of the Group;
- average exchange rates of the functional currencies of the Group subsidiaries applied in translation to the Group's presentation currency, i.e. Polish zloty;
- revaluation of liabilities due to the acquisition of shares in Altius Bulgaria, ASEE Bulgaria, and EST A.Ş. (presently ASEE Turkey);
- successful completion of potential acquisitions; and
- conclusion of each of the commercial contracts described in item 4.

## **XI. FACTORS THAT IN THE MANAGEMENT'S OPINION MAY AFFECT THE GROUP'S FINANCIAL PERFORMANCE AT LEAST TILL THE NEXT QUARTER END**

*Indication of factors which, in the issuer's opinion, will affect its financial performance at least till the end of the next quarter.*

In the opinion of the Management Board of Asseco South Eastern Europe S.A., the Group's current financial standing, its production potential and market position pose no threats to continued operations and growth throughout 2012. However, there are numerous factors, both internal and external, which may directly or indirectly affect the Group's financial performance in the next quarters.

### **External factors affecting the Group's development**

- economic growth in the region of South Eastern Europe, primarily with a view to overcoming the crisis, achieving stabilization and reasonable growth;
- condition of the IT market in the SEE region; this part of Europe remains still way underinvested in terms of information technology as compared with the West European countries;
- consolidation and development of the banking sector in the region of South Eastern Europe;
- prospects for expansion of the Group's foreign operations and its product portfolio in connection with the planned acquisitions;
- ability to capture the market niches;
- availability of the EU structural funds in Romania and Bulgaria as well as pre-accession funds in Croatia, Macedonia, and Kosovo;
- implementation of the public administration informatization processes in order to upgrade the quality and functionality of their services to international standards and especially to the European Union requirements;
- inflation and fluctuations in the foreign exchange rates (primarily of euro, but also the currencies of the countries where the Group operates);
- more and more severe competition both from the local players and international IT corporations, which is observed especially when it comes to execution of large and prestigious contracts;
- changes in the credit standing, financial liquidity, and availability of credit financing for clients;
- opportunities and risks resulting from relatively rapid technological changes and innovations in the IT market.

### **Internal factors affecting the Group's development**

- high quality and comprehensive offering of the Asseco South Eastern Europe Group;
- research and development expenditures;
- stability and experience of the managerial staff;
- streamlining and transparency of the Group's structure;
- plenty of experience in the execution of complex IT projects involving provision of diversified services in broad geographical regions;
- effective activities of the sales and marketing force;
- opportunities for the execution of complex information technology projects carried out under long-term agreements;
- implementation of the Group's business strategy involving expansion into new foreign markets;
- successful finalization of the intended company acquisitions.

## **XII. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE**

In the period from 31 March 2012 till the date of approval of these interim condensed consolidated financial statements, i.e. till 26 April 2012, the following significant events took place.

### ***□ Acquisition of a 50% stake in ASEE Slovenia by ASEE S.A. from ASEE Serbia***

On 18 April 2012, ASEE S.A. was registered as a holder of 100% of shares in ASEE Slovenia. So far the direct shareholding of ASEE S.A. in ASEE Slovenia was 50%; whereas, the remaining 50% of shares were owned by ASEE Serbia. Following this transaction, ASEE S.A. has become a direct owner of 100% of shares in ASEE Slovenia. This transaction was completed as part of the Group's restructuring process intended to "flatten" and simplify its organizational structure. The said transaction has no impact on the consolidated financial statements of the Group.

In the period from 31 March 2012 till the date of approval of these interim condensed consolidated financial statements, i.e. till 26 April 2012, there occurred no other significant events, the disclosure of which might significantly affect the assessment of human resources, assets, and financial position of the Asseco South Eastern Europe Group.

## **XIII. SIGNIFICANT EVENTS RELATED TO PRIOR YEARS**

Until the date of preparing these interim condensed consolidated financial statements, this is until 26 April 2012, there occurred no significant events related to prior years, which have not but should have been included in the accounting books.
