**IV. ORGANIZATIONAL STRUCTURE OF ASECO SOUTH EASTERN EUROPE GROUP**

The chart above presents the structure of ASEE Group along with equity interests and voting interests at the general meetings of shareholders/partners as at 31 March 2014.

The parent of Asseco South Eastern Europe S.A. is Asseco Poland S.A. (the higher-level parent company). As at 31 March 2014, Asseco Poland S.A. held a 51.06% stake in the share capital of ASEE S.A.

Within the Group's organizational structure, E-Mon Montenegro is treated as a jointly controlled company and therefore consolidated under the equity method in line with IFRS 11.

Multicard Serbia is an associated company accounted for using the equity method. Up until 30 September 2013, Multicard Serbia was treated as a subsidiary and subject to full consolidation.

The remaining companies incorporated within the Group are treated as subsidiaries and are subject to full consolidation.

Both as at 31 March 2014 and 31 December 2013, voting interests the Group was entitled to exercise in its subsidiaries were proportional to the Group's equity interests in these entities.

**V. EFFECTS OF CHANGES IN THE ORGANIZATIONAL STRUCTURE**

During the period of 3 months ended 31 June 2014, the organizational structure of the Issuer's Group changed as follows:

- On 2 January 2014, a merger of our two Croatian subsidiaries, namely ASEE Croatia (the taking-over company) and EŽR Croatia (the acquired company) was registered. The above-mentioned transaction has had no impact on the consolidated financial statements of the Group.

**VI. ACCOUNTING POLICIES APPLIED WHEN PREPARING THE CONSOLIDATED FINANCIAL STATEMENTS**

**1. Basis for the preparation of interim condensed consolidated financial statements**

These interim condensed consolidated financial statements were prepared in accordance with the historical cost convention, except for derivative financial instruments and assets that are carried at fair value through profit or loss.

The presentation currency of these interim condensed consolidated financial statements is the Polish zloty (PLN), and all figures are presented in thousands of zlotys (PLN'000), unless stated otherwise.

These interim condensed consolidated financial statements were prepared on a going-concern basis, assuming the Group, Parent Company as well as its subsidiaries will continue their business activities in the foreseeable future.

Till the date of approving these financial statements, we have not observed any circumstances that would threaten the Company and the Group companies' ability to continue as going concerns in the period of at least 12 months following the balance sheet date.

**2. Compliance statement**

These interim condensed consolidated financial statements have been prepared in conformity with the International Financial Reporting Standards ("IFRS") as adopted by the European Union and, in particular, in accordance with the International Accounting Standard 34 Interim Financial Reporting. In these interim consolidated financial statements, the Group has not opted for the early adoption of any standards or interpretations which have not become effective yet.

Some of the Group companies maintain their accounting books in accordance with the accounting policies set forth in their respective local regulations. The interim condensed consolidated financial statements include adjustments not disclosed in the accounting books of the Group's entities which were introduced to adjust the financial statements of those entities to the IFRS.

**3. Significant accounting policies**

The significant accounting policies adopted by ASEE Group have been described in the consolidated financial statements for the year ended 31 December 2013, which were published on 19 February 2014 and are available at the Issuer's website: [www.asseco.com/see](http://www.asseco.com/see). These interim condensed consolidated financial statements do not include all the information and disclosures required for annual consolidated financial statements and therefore they should be read together with the Group's consolidated financial statements for the year ended 31 December 2013.

Starting from 1 January 2014, the Group has changed the method of accounting for its jointly controlled company, from the proportionate method to the equity method, in connection with the entry into force of IFRS 11 *Joint Arrangements*.

The above-mentioned change has been described in detail in items VI.9. and VI.11. of the Accounting policies applied when preparing the consolidated financial statements.

Other accounting policies adopted for drawing up this report are coherent with those applied for the preparation of the Group's consolidated financial statements for the year ended 31 December 2013, except for applying the amendments to standards and new interpretations effective for annual periods beginning on or after 1 January 2014, including in particular IFRS 11 *Joint Arrangements*.

**4. Functional currency and reporting currency**

The functional currency applied by the Parent Company as well as the reporting currency used in these interim condensed consolidated financial statements is the Polish zloty (PLN).

Separate and consolidated financial statements of the Group companies are drawn up in the functional currencies of their primary business environments. The functional currencies of direct subsidiaries of ASEE S.A. include the Romanian leu (RON), Croatian kuna (HRK), Serbian dinar (RDS), Macedonian denar (MKD), euro (EUR), Turkish lira (TRY), Bulgarian lev (BGN), Bosnia and Herzegovina convertible mark (BAM), and Polish zloty (PLN).

## **5. Changes in estimates**

In the period of 3 months ended 31 March 2014, our approach to making estimates was not subject to any substantial change.

## **6. Professional judgement**

Preparing consolidated financial statements in accordance with IFRS requires making estimates and assumptions which impact the data disclosed in such financial statements. Despite the estimates and assumptions have been adopted based on the Group's management best knowledge on the current activities and occurrences, the actual results may differ from those anticipated. The main areas which, in the process of applying the accounting policies, were largely subject to the management's professional judgement remained unchanged as compared with their description presented in the annual financial statements for the year 2013.

## **7. Seasonal nature of business**

The Group's business operations are subject to seasonality, which involves revenue fluctuations in individual quarters of the year. Because bulk of sales revenues are generated from IT services contracts executed for large companies and public institutions, the fourth quarter turnovers tend to be higher than in the remaining periods. Such phenomenon occurs for the reason that the above-mentioned entities close their annual budgets for implementation of IT projects and carry out investment purchases of hardware and licenses usually in the last quarter.

## **8. Changes in the presentation methods**

In the reporting period, for the sake of consistent presentation of financial data within Asseco Poland Group, we have restored our consolidated income statement back to the layout that was used up until 2012.

In comparison with 2013, the change made in 2014 involved replacing the lines of 'cost of goods and third-party services sold' and 'production costs' with a single line called 'cost of sales'. We have also resumed the presentation of the 'gross profit on sales' which is calculated by deducting the 'cost of sales' from 'sales revenues'.

In 2014, we have ceased to present the 'surplus of revenues over third-party costs' that was calculated by deducting the 'cost of goods and third-party services sold' from 'sales revenues'.

In addition, in the 1<sup>st</sup> quarter of 2014, we have changed the method of allocating some of the managerial staff remuneration to production costs, selling costs or general administrative expenses, in order to unify the recognition of such remuneration costs across the entire ASEE Group. Financial data for the 1<sup>st</sup> quarter of 2013 have been adjusted to ensure comparability. The effects of the above described changes have been described in item 11 below.

## **9. Changes in the accounting policies applied**

In the reporting period, the Group has not introduced any changes to the applied accounting policies, except for adopting the amendments to standards and new interpretations effective for annual periods beginning on or after 1 January 2014, including in particular IFRS 11 *Joint Arrangements*. The effects of adopting IFRS 11 have been described in item 11 below.

The Group has not changed the method for valuation of financial instruments measured at fair value.

## **10. Corrections of material errors**

In the reporting period, no events occurred that would require making corrections of any misstatements.

## **11. Changes in the comparable data**

In these interim consolidated financial statements, the comparable data have been subject to the following restatements:

### *Change in the accounting for E-Mon Montenegro*

ASEE Group holds a 50% stake in E-mon Montenegro which is a provider of online payment solutions. Until 31 December 2013, this company was classified as a jointly controlled entity and accounted for using the proportionate method under the provisions of IAS 31 *Interests in Joint Ventures*. Due to the entry into force of IFRS 11 *Joint Arrangements*, which shall be effective in the European Union at the latest for annual periods beginning on or after 1 January 2014, and the resulting impossibility of applying the proportionate method, in these interim consolidated financial statements the company of E-mon Montenegro has been accounted for using the equity method. The equity method has been also applied retrospectively to the comparable data reported for 3 months

ended 31 March 2013 and as at 31 December 2013 and 31 March 2013. The impact on the comparable data resulting from changing the recognition method, from proportionate to equity-based, has been shown in the tables below.

*Changes due to the process of fair value measurement of assets and liabilities of Sigma Turkey*

As a result of fair value measurement of assets and liabilities of Sigma Turkey, the Group's balance sheet data as at 31 March 2013 have been changed retrospectively. ASEE Group acquired a 98.68% stake in Sigma Turkey on 14 September 2012. The process of fair value measurement of assets and liabilities of the acquired company, carried out as part of the purchase price allocation, was not completed until 31 March 2013. Therefore, goodwill arising from the purchase of shares in Sigma Turkey, which was recognized in the consolidated financial statements as at 31 March 2013, was estimated on the basis of provisional values of identifiable assets, liabilities and contingent liabilities.

In 2013, such estimated value of goodwill was changed due to the recognition of an additional liability relating to a contract executed by Sigma Turkey before being taken over by ASEE S.A. The valuation process was completed in the 3<sup>rd</sup> quarter of 2013.

The impact of the said change on the comparable data has been presented in the table below.

*Changes in the allocation of remuneration costs to production costs, selling costs or general administrative expenses*

Due to unifying the presentation of the costs of remuneration of managerial staff of the Group companies in the 1<sup>st</sup> quarter of 2014, we have changed the method of allocating some of such costs to production costs, selling costs or general administrative expenses. Financial figures for the 1<sup>st</sup> quarter of 2013 have been adjusted accordingly to ensure comparability. The resulting changes to the comparable data have been presented in the tables below.

## **VII. INFORMATION ON OPERATING SEGMENTS**

Asseco South Eastern Europe Group has identified the following reportable segments reflecting the structure of its business operations:

- a) Banking Solutions,
- b) Payment Solutions,
- c) Systems Integration.

### *Banking Solutions*

This segment deals with integrated banking systems based on the Oracle and Microsoft platforms (offered under the brand name of ASEBA), including primarily *core banking systems*.

In addition, the integrated systems include solutions dedicated to support various bank access channels, payment systems, reporting systems for regulatory compliance and managerial information, as well as risk management and anti-fraud systems.

This segment also provides systems enabling secure authentication of bank clients or IT system users, as well as e-banking solutions available on mobile phones. These solutions are marketed as an integral part of the core and multi-channel banking systems offered by the Group companies, or separately for the purpose of being integrated with legacy IT solutions or third-party software already utilized by banks.

Furthermore, the product portfolio of the Banking Solutions segment includes LeaseFlex, a fully-fledged lease and asset lifecycle management solution.

### *Payment Solutions*

This segment is engaged in the sale and maintenance of ATMs and POS terminals as well as in the provision of related support services. ATMs and POS terminals are also offered by the Group in the outsourcing model, which allows customers to just rent the equipment from ASEE Group and take advantage of our maintenance and infrastructure management services.

This operating segment also provides IT systems for the settlement of internet credit card payments as well as for fast and direct online money transfers.

### *Systems Integration*

This segment is engaged in the development of customized IT systems, integration of third-party software and elements of infrastructure, as well as in the sale and installation of hardware solutions. Furthermore, the Systems Integration segment includes the presentation of sales of a number of the Group's proprietary solutions that do not qualify for any of the operating segments described above.

The Group's business profile and product portfolio have been described in detail in its financial statements for the year 2013.

\*Normalized profit for the reporting period is calculated as "Net profit for the reporting period" adjusted for gains on non-recurring transactions recognized as financial income. No one-time events occurred during both the 1<sup>st</sup> quarter of 2014 and the 1<sup>st</sup> quarter of 2013.

In the 1<sup>st</sup> quarter of 2014, our sales revenues presented in PLN and EUR dropped by 1% and 2%, respectively, both in comparison to the corresponding period of 2013. Such deterioration resulted primarily from weaker revenues generated in the Banking Solutions segment (a decrease by EUR 813 thousand) as well as in the Systems Integration segment (a decrease by EUR 646 thousand), which were partially offset by robust revenues generated in the Payment Solutions segment (an increase by EUR 1,046 thousand).

A decrease in revenues of the Banking Solutions segment in the 1<sup>st</sup> quarter of 2014 was caused primarily by lower sales of products and services for the banking industry clients in Serbia (a decrease by EUR 510 thousand) and in Romania (a decrease by EUR 260 thousand), where we completed the implementation of large core banking systems at the end of 2013 and no significant projects have been commenced during the last three months. A slightly smaller decrease in revenues (by EUR 170 thousand) was experienced in Macedonia which, within the Banking Solutions segment, is in close cooperation with Serbia. However, our banking solutions revenues generated in Turkey increased by EUR 300 thousand, basically owing to new contracts for the implementation and modification of LeaseFlex system.

In the 1<sup>st</sup> quarter of 2014, weaker revenues of the Systems Integration segment resulted chiefly from lower sales of hardware and integration services in Macedonia (a decrease by EUR 730 thousand) as well as a smaller number of call-center system implementations in Turkey (a decrease in sales by EUR 380 thousand). Such deterioration was partially compensated by stronger sales of

integration services in Romania (an increase by EUR 590 thousand in comparison to the 1<sup>st</sup> quarter of 2013).

Higher revenues in the Payment Solutions segment were achieved largely due to the consolidation of financial results of EŽR Croatia, which was taken over by ASEE S.A. on 23 October 2013.

A decrease in total sales revenues by EUR 413 thousand that was accompanied by an increase in the cost of sales by EUR 125 thousand (mainly due to higher production costs following the acquisition of EŽR Croatia, depreciation of POS terminals and ATMs purchased for outsourcing purposes, as well as amortization of internally generated products that have been capitalized) all caused a decline in our gross profit on sales by EUR 548 thousand or by 9% in comparison to the 1<sup>st</sup> quarter of 2013.

By implementing savings on selling expenses and general administrative expenses, we managed to somewhat reduce the scale of deterioration in our net profit on sales, which declined by EUR 457 thousand or by 20% if compared to the first three months of 2013.

In the 1<sup>st</sup> quarter of 2014, operating profit amounted to EUR 1,911 thousand, suffering a decrease by EUR 451 thousand or by 19% in comparison to the corresponding quarter last year.

Lower operating profit of ASEE Group resulted from weaker sales generated by our Banking Solutions segment. Within this segment, the level of revenues deteriorated primarily in Serbia, Romania and Macedonia, and also in these countries our operating profits suffered the largest declines by EUR 490 thousand, EUR 130 thousand and EUR 180 thousand, respectively, in comparison to

the corresponding period last year. Operating profit decreased also in the Banking Solutions segment in Croatia, where we completed the implementation of a core banking system at Podravska Banka, made investments to reinforce our mobile solutions team, and incurred amortization costs of internally generated products. The said decreases have been partially offset by a stronger operating profit achieved in Turkey, which improved by EUR 240 thousand in comparison to the 1<sup>st</sup> quarter of 2013, primarily owing to higher sales of LeaseFlex leasing management solution. Operating profit of the whole Banking Solutions segment dropped from EUR 919 thousand in the 1<sup>st</sup> quarter of 2013 down to EUR 211 thousand in the corresponding period this year.

Operating profit reported by the Payment Solutions segment for the 1<sup>st</sup> quarter of 2014 amounted to EUR 1,148 thousand, remaining at a similar level as in the corresponding period last year.

Despite lower sales revenues, operating profit of the Systems Integration segment increased from EUR 299 thousand for the 1<sup>st</sup> quarter of 2013 up to EUR 552 thousand in the corresponding period this year. This was achieved owing to much stronger results of the Systems Integration segment in Romania whose operating profit improved by EUR 370 thousand, partially due to a reversal of an allowance for receivables under the e-Romania project (in the amount of EUR 189 thousand). Stronger operating performance of the Systems Integration segment in Romania was partially offset by the segment's weaker operating profit in Turkey, which dropped by EUR 170 thousand.

Net profit for the 1<sup>st</sup> quarter of 2014 amounted to EUR 1,674 thousand, declining by EUR 194 thousand or by 10% in comparison to the corresponding period last year. In percentage

terms, our net profit decreased less than operating profit, chiefly due to the lower amounts of income tax and withholding tax charged on the holding company, which recorded a significantly lower dividend income from subsidiaries in the 1<sup>st</sup> quarter of 2014.

Systems Integration	546	297	84%
	<b>1,866</b>	<b>2,323</b>	<b>-20%</b>

In the 1<sup>st</sup> quarter of 2014, consolidated net profit on sales amounted to EUR 1,866 thousand, decreasing by EUR 457 thousand or by 20% as compared with the corresponding period a year ago. Net profit on sales decreased by EUR 704 thousand in the Banking Solutions segment, remained at a stable level in the Payment Solutions segment, while it improved by EUR 249 thousand in the Systems Integration segment.

The amounts of net profit on sales achieved by the Group's individual operating segments have been affected by the same factors as the results of our operations. These factors have been described above, in the comments on our consolidated operating profit.

## Analysis of financial ratios

PLN'000	3 months ended	3 months ended
	31 March 2014	31 March 2013
	(unaudited)	(restated)
Gross profit margin	24%	26%
EBITDA margin	13%	13%
Operating profit margin	8%	10%
Net profit margin	7%	8%
Return on assets (ROA)	5%	7%
Return on equity (ROE)	5%	6%

The above ratios have been computed using the following formulas:

Gross profit margin = gross profit on sales / sales

EBITDA margin = (operating profit + depreciation and amortization) / sales

Operating profit margin = operating profit / sales

Net profit margin = net profit for the reporting period attributable to Shareholders of the Parent Company / sales

Return on equity (ROE) = net profit for the period of trailing 12 months attributable to Shareholders of the Parent Company / average annual equity attributable to Shareholders of the Parent Company

Return on assets (ROA) = net profit for the period of trailing 12 months attributable to Shareholders of the Parent Company / average annual assets

Despite the weaker sales revenues (especially in the Banking Solutions segment), our gross profit margin decreased from 26% in the 1<sup>st</sup> quarter of 2013 to 24% in the corresponding period of this year, primarily due to the lower gross profit margin achieved by the Banking Solutions segment as its production costs decreased less than its sales revenues.

EBITDA margin equalled 13% in the 1<sup>st</sup> quarter of 2014, remaining at a similar level as in the first three months last year. Concurrently, our operating profit margin dropped by 2 percentage points to the level of 8% in the 1<sup>st</sup> quarter of 2014. The main reasons for this decline in individual segments have been already described above.

Net profit margin for the reporting period dropped to 7%, down from 8% achieved in the first three months of 2013. This margin decreased slightly less than our operating profit margin, chiefly due to the lower amount of withholding tax and income tax charged on the holding company, which recorded a significantly lower income from dividends in the 1<sup>st</sup> quarter of 2014.

Lower margins of profit resulted in a decline in the values of ROE and ROA ratios. Return on equity equalled 5%, decreasing by 1 pp as compared with the prior year level. Whereas, return on assets equalled also 5% and was by 2 pp lower than in the 1<sup>st</sup> quarter of 2013.

	31 March 2014	31 Dec. 2013	31 March 2013
	(unaudited)	(restated)	(restated)
Working capital (in PLN thousands)	101,487	96,400	136,559
Current liquidity ratio	2.12	1.83	2.81
Quick liquidity ratio	1.82	1.61	2.47
Absolute liquidity ratio	0.68	0.52	1.21

The above ratios have been computed using the following formulas:

Working capital = current assets - current liabilities

Current liquidity ratio = current assets / current liabilities

Quick liquidity ratio = (current assets - inventories - prepayments) / current liabilities

Absolute liquidity ratio = (short-term financial assets + cash and short-term bank deposits) / current liabilities

Our liquidity ratios have been slightly better at the end of March 2014 than at the end of December 2013.

During the 1<sup>st</sup> quarter of 2014, we incurred no unusual expenses, which resulted in an increase of working capital. Whereas, in comparison with the level of 31 March 2013, our working capital decreased chiefly due to the payment of dividend amounting to PLN 42 million in July 2013, as well as the acquisition of EŽR Croatia for PLN 10.4 million in October 2013.

## Statement of cash flows

	3 months ended 31 March 2014	3 months ended 31 March 2013
	(unaudited)	(restated)
<b>Cash and cash equivalents at the beginning of the period</b>	<b>58,327</b>	<b>72,949</b>
Net cash provided by (used in) operating activities	3,448	2,128
Net cash provided by (used in) investing activities	(25,220)	(14,266)
Net cash provided by (used in) financing activities	20,711	(127)
Net foreign exchange differences	247	1,717
<b>Cash and cash equivalents at the end of period</b>	<b>57,513</b>	<b>62,401</b>

During the first three months of 2014, the balance of our cash and cash equivalents dropped by PLN 0.8 million.

Net cash provided by operating activities in the 1<sup>st</sup> quarter of 2014 reached PLN 3.4 million, accounting for 43% of our operating profit for this period. Low cash conversion is primarily the result of payments of tax liabilities and variable remunerations that were made in the 1<sup>st</sup> quarter of 2014 and related to the Group's operations conducted in 2013.

In the 1<sup>st</sup> quarter of 2014, our investing activities were dominated by acquisitions of property, plant and equipment amounting to PLN 20.3 million, including primarily POS terminals and automatic teller machines to be outsourced to our clients in the Payment Solutions segment.

These expenditures are largely financed with external funds, which requires significant cash inflows from financing activities. Therefore, in the 1<sup>st</sup> quarter of 2014, ASEE Group obtained PLN 21.4 million in proceeds from bank loans to purchase POS terminals mainly in Croatia and Serbia.

The second largest component of our investing activities is represented by capitalized software development costs which consumed PLN 2.1 million in the 1<sup>st</sup> quarter of 2014. Our development projects have been carried out mainly in Turkey and Serbia.

## X. FACTORS THAT IN THE MANAGEMENT'S OPINION MAY AFFECT THE GROUP'S FINANCIAL PERFORMANCE AT LEAST TILL THE NEXT QUARTER END

The factors that will affect the Group's financial performance at least till the end of the next quarter have been indicated and explained as part of the summary and analysis of the financial results of ASEE Group in section IX of this report.

The factors that may affect the Group's financial performance in 2014 have been also described in the Management report on the Group's business operations for the year 2013.

In addition to the above-mentioned descriptions, in the next quarter our financial results will be influenced by common factors with impact on the Group's operations (the existing order backlog, efficient implementation of ongoing projects, potential new contracts, etc.). The Group continues to invest in the development of new products, although on a slightly smaller scale.

#### 4. Earnings per share

Basic earnings per share are computed by dividing net profit for the reporting period attributable to shareholders of the Parent Company by the weighted average number of ordinary shares outstanding during that financial year. Both during the reporting period and the prior year's comparable period, no events occurred that would result in a dilution of earnings per share.

The table below presents net profits and numbers of shares used for the calculation of basic and diluted earnings per share:

	3 months ended 31 March 2014 (unaudited)	3 months ended 31 March 2013 (restated)
<b>Consolidated net profit for the reporting period attributable to Shareholders of ASEE S.A.</b>	<b>7,015</b>	<b>7,808</b>
Weighted average number of ordinary shares outstanding, used for calculation of basic earnings per share	51,894,251	51,894,251
<b>Consolidated earnings per share for the reporting period attributable to Shareholders of ASEE S.A. (in PLN):</b>		
Basic consolidated earnings per share from continuing operations for the reporting period	0.14	0.15
Diluted consolidated earnings per share from continuing operations for the reporting period	0.14	0.15

#### 5. Information on dividends paid out or declared

a) the amount of PLN 3,224,924.03 from the net profit for the financial year 2013 shall be allocated to the reserve capital pursuant to art. 396 § 1 of the Commercial Companies Code;

b) the amount of PLN 16,606,160.32 shall be distributed among all the Company's shareholders through payment of a dividend amounting to PLN 0.32 per share.

The remaining portion of the net profit for 2013 amounting to PLN 20,480,466.03 has been retained as prior years' earnings.

The Company's Ordinary General Meeting of Shareholders established 11 July 2014 as the dividend record date and 30 July 2013 as the dividend payment date. The number of shares eligible for dividend is 51,894,251.

#### 6. Property, plant and equipment, and intangible assets

	Tangible assets	Intangible assets
<b>Net book value as at 1 January 2014</b>	<b>33,897</b>	<b>32,772</b>

<b>Net book value as at 31 March 2014</b>	<b>54,831</b>	<b>33,954</b>

An increase in the value of tangible assets as at 31 March 2014 (PLN 54,831 thousand) and 31 December 2013 (PLN 33,897 thousand) both in comparison to those of 31 March 2013 (PLN 21,068 thousand) resulted primarily from purchases of ATMs, POS terminals and other elements of infrastructure to be offered in the outsourcing model.

In the 1<sup>st</sup> quarter of 2014, capitalized costs of development projects amounted to PLN 2,149 thousand as compared with PLN 3,266 thousand in the comparable period of 2013. The capitalization of project development costs is related to the continuation of projects carried out as at 31 December 2013. A detailed description of these projects is provided in the Group's annual report for the year 2013.

Liabilities resulting from purchases of property, plant and equipment and intangible assets amounted to PLN 3,304 thousand as at 31 March 2014, as compared with PLN 704 thousand as at 31 December 2013 and PLN 156 thousand as at 31 March 2013. A substantial portion of such liabilities outstanding as at 31 March 2014 was represented by unpaid invoices for ATMs and POS terminals purchased by ASEE Slovenia and ASEE Serbia.

## 7. Goodwill arising from consolidation

During the reporting period and comparable period, goodwill arising from consolidation changed as follows:

Receivables relating to uninvoiced deliveries result from the sale of third-party licenses and maintenance services, for which invoices have not yet been issued for the whole period of licensing or provision of maintenance services.

Advance payments to other suppliers correspond to advances paid to subcontractors on account of the execution of contracts.

Other receivables disclosed as at 31 March 2014, 31 December 2013 and 31 March 2013 include, among others, restricted cash amounting to PLN 367 thousand, PLN 837 thousand and PLN 1,541 thousand, respectively.

In addition, other receivables disclosed as at 31 March 2014, 31 December 2013 and 31 March 2013 include receivables from employees.

## 9. Financial assets

	31 March 2014 (unaudited)	31 Dec. 2013 (restated)	31 March 2013 (restated)
<b>Financial assets available for sale:</b>	<b>129</b>	<b>129</b>	<b>133</b>

Both as at 31 March 2014 and 31 December 2013, loans granted to related companies comprised:

- a non-interest bearing loan granted to Multicard Serbia (an associated company), amounting to PLN 292 thousand and PLN 290 thousand, respectively, that shall be repaid till 31 October 2014.

The book values of financial assets held by the Group as at 31 March 2014, 31 December 2013 and 31 March 2013 did not differ from their fair values.

## 10. Cash and short-term deposits

Other	664	811	364
Revaluation charges on prepayments (-)	-	-	(27)
	<b>9,465</b>	<b>7,395</b>	<b>7,153</b>

As at 31 March 2014, 31 December 2013 and 31 March 2013, prepayments included primarily the costs of maintenance services amounting to PLN 6,004 thousand, PLN 5,344 thousand and PLN 5,407 thousand, respectively, that will be successively expensed in future periods.

## 12. Long-term and short-term financial liabilities

Long-term	31 March 2014 (unaudited)	31 Dec. 2013 (restated)	31 March 2013 (restated)
Liabilities for the acquisition of non-controlling interests in subsidiaries (put options)	-	-	671
Finance lease liabilities	782	718	90
	<b>782</b>	<b>718</b>	<b>761</b>

As at 31 March 2013, the Group carried a long-term liability under put options held by non-controlling shareholders in Multicard Serbia. The amount owed by ASEE Group corresponded to the estimated present value of future payment for the remaining stake of shares in the above-mentioned company.

As at 31 December 2013, the Group ceased to disclose Multicard Serbia as its subsidiary due to losing control over that company. The non-controlling shareholders' right to exercise their put options was contingent upon achievement of certain earnings by the company. As the above-mentioned condition was not satisfied and the put options became unexercisable, the said liability was no longer recognized by the Group as at 31 December 2013. This liability has been reversed in correspondence with the Group's equity in 2013.

Short-term	31 March 2014 (unaudited)	31 Dec. 2013 (restated)	31 March 2013 (restated)
Finance lease liabilities	277	273	235
Liabilities for the acquisition of shares	1,810	1,800	-
	<b>2,087</b>	<b>2,073</b>	<b>235</b>

As at 31 March 2014 and 31 December 2013, liabilities for the acquisition of shares included the remaining portion of payment for the acquisition of 100% of shares in EŽR Croatia amounting to PLN 1,810 thousand and PLN 1,800 thousand, respectively, which shall depend on the financial results of the acquired company. Both as at 31 March 2013, no such liabilities were recognized.

## 13. Interest-bearing bank loans and borrowings

As at 31 March 2014, total liabilities of ASEE Group under all bank loans and borrowings aggregated at PLN 34,957 thousand. Whereas, as at 31 December 2013 and 31 March 2013, total liabilities under all bank loans and borrowings aggregated at PLN 13,471 thousand and PLN 340 thousand, respectively.

An increase in the level of debt as at 31 March 2014 and 31 December 2013 in comparison to that of 31 March 2013 resulted primarily from our transition to a service-based model which involves leasing of infrastructure instead of selling equipment directly to customers. Purchases of infrastructure for leasing purposes are increasingly financed with external capital.

Repayment of a bank loan granted to ASEE Croatia by Zagrebačka banka d.d./HBOR has been secured with a guarantee of PLN 9,908 thousand which is provided by ASEE S.A. and effective till 31 May 2017. It is an off-balance-sheet item.

To the best knowledge of the Management Board of ASEE S.A., the Group neither defaulted on payments under any bank loan or borrowing, nor did it breach any material provisions under any bank loan or borrowing agreement.

#### 14. Short-term trade payables and other liabilities

Short-term trade payables	31 March 2014 (unaudited)	31 Dec. 2013 (restated)	31 March 2013 (restated)
