Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our responsibility is to express an opinion on accompanying consolidated financial statements based on our audit.

We conducted our audit in accordance with chapter 7 of the Accounting Act and National Auditing Standards in the version of International Standards on Auditing as adopted by Resolution no 2783/52/2015 of the National Council of Statutory Auditors dated 10 February 2015 with subsequent amendments ('National Auditing Standards'). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

In accordance with National Auditing Standard 320 point 5 the concept of materiality is applied by the auditor both in planning and performing the audit, and in evaluating the effect of identified misstatements on the audit and of uncorrected misstatements, if any, on the consolidated financial statements and in forming the opinion in the auditor's report. Hence all auditor's assertions and statements contained in the auditor's report, including those on other information or regulatory requirements, are made with the contemplation of the qualitative and quantitative materiality levels established in accordance with auditing standards and auditor's professional judgement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
